RESUME

Education

San Francisco Art Institute, San Francisco CA. MFA. 2004.
San Francisco Art Institute, San Francisco CA. Post Baccalaureate. 2002.
Beloit College, Beloit WI. BA. 1974.

Selected Web work

Tobi.com (2015 to present)—Full-stack Rails engineer on a large-scale enterprise application which includes an on-line store and administration for orders, warehouse/shipping, reporting, and marketing. Last year I built a restful API application in Docker to act as the catalog for the store (Rails 5 and Solr). I regularly use Rails 2 and 5, Solr, Postgres, Memcached, Redis, Github, Solano CI, Rundeck, Pivotal Tracker, Bugsnag, New Relic, Sumo Logic, RSpec, Selenium, Capybara, Pry, FactoryGirl, Nginx, Unicorn, Puma, Resque, Yard, and the Braintree and Stripe payment processors.

Couchsurfing.org (2013 to 2015)—Social hospitality site. I was part of team that completely redid the web application including large-scale data migrations and analysis in SQL; Ruby on Rails, Erector and HTML5, CSS3 and Sass, JavaScript with jQuery, Node JS, Backbone, JSON, Bootstrap, RSpec, and PHP.

Rich Pageant (2011–2013)—Front end: HTML5, XHTML, CSS, JavaScript, JSON, AJAX, and Flash integration; back end: PHP CodeIgniter, MySQL. Multi-media company site—custom CMS.

Orange Design (2004–11)—Agency building mainly Flash apps and games. Front end XHTML, CSS, JavaScript, SVG, VML, AJAX, XML/JSON, Flash Integration; back end PHP CodeIgniter, MySQL, Ruby on Rails. Selected projects:

CNN—A multimedia, web-based internal management application.

CNN—Management tool utilizing database-XML-Flash integration, content management, and video manipulation.

EA / Maxis—Darkspore video game introductory site.

Tagdis—Web site for Tagdis virtual graffiti iPhone game—Ruby on Rails site utilizing data from the iPhone game.

CNN Election Map (2008)—Interactive map to display Twitter data mining via JSON.

Mauna Lani Resort (2004-5)—Custom e-postcard.

Yahoo! (2005)—RSS publisher's guide and tutorial.

Sony PlayStation (2005)—Interactive events and tours calendar.

Mekanism (2010)—Ad agency. Front end XHTML, CSS, Facebook JavaScript SDK, and AJAX; back end PHP CodeIgniter with MySQL, and AMF. Selected projects:

DKNY Original Kiss in a Cab—Flash-based Facebook application and moderation tool.

Brisk Stories user moderation—Same as above; included US and Canada Brisk campaigns.

Anderson DDB (2007–9)—Ad agency. Front end: XHTML, CSS, JavaScript, XML, AJAX, and Flash integration; back end: PHP, MySQL. Selected projects:

Diabetes Act Now—Patient site offering information and an on-line diet/exercise plan.

Diabetes Actúa Ya—Spanish version of above site.

Diabetes Care Coalition—Multi-media information site.

Lifescan, Inc.—Flash-based product information.

X-Stop—Medical device information site (PHP, Flash).

Pushy Cat (2011–3)—Facebook game (HTML5, Facebook PHP SDK, MySQL, AJAX).

Kixeye (2012)—Flash based game—Web integration (HTML5, CSS3, Javascript, Mootools).

Peter Eller (2011)—Custom CMS for artist site (front and back end).

Metro Nashville Arts Commission (1996–2010)—Created content management system, online grant application; web master; data analysis.

Otherzine (2004)—Custom CMS for online magazine (PHP, MySQL, XHTML, CSS, JavaScript).

Other activities

1974 to present—Artist, filmmaker

2009 to 2013—Bay Area Video Coalition instructor

2004 to 2008—Editor Otherzine on-line magazine for Other Cinema, San Francisco CA
